**Purpose:**

The Kansas Trauma Conference is designed to provide the most current information regarding diagnostic and treatment methods for the trauma patient. The theme of this year’s conference is, “Emergencies in Women and Children.” Many traumas involve infants, children, adolescents and pregnant women. This year’s conference will focus on how to treat emergencies and traumas involving these patients.

**Target Audience:**

This conference is targeting Emergency Medicine Physicians, Internists, Radiologists, Surgeons, Primary Care Physicians, Physician Assistants, Nurses, Respiratory Care Practitioners, MICTs, EMT’s and other healthcare providers caring for the trauma patient.

**Planning Committee:**

Chair: James M. Haan, MD
R. Joseph Nold, MD
Mark Rogers, MD, FACEP
Kris Hill, RN, MSN, Director of Trauma Services
Jody Gragg, RN, BSN, MICT
Matt Hotzel, CME Manager
Melissa Haddock, CME Coordinator
Anita Yoakum, CNE Coordinator

**Hotel Accommodations:**

A discounted rate of $119 has been arranged with the Marriott for the nights of June 2nd and 3rd. Room reservations must be made directly with the hotel no later than May 19th in order to receive the discounted rate. Please mention the “Kansas Trauma Conference” when making your reservation.

Wichita Marriott  316.651.0333
9100 Corporate Hills Dr.
Wichita, Kansas

**Personal Comfort:**

Because it is difficult to control the temperature in meeting rooms, please consider bringing a lightweight jacket or sweater for personal comfort.
Program Objectives:
1. Describe the dangers of sports related concussion and the basics of a return to play protocol.
2. Explain the approach to triaging an OB trauma patient.
3. Discuss common OB emergencies and how to treat them.
4. Describe the dangers of distracted driving, especially in the teenage population.
5. Recognize the benefits of successfully utilizing basic and advanced life support techniques to reduce pediatric mortality.
6. Realize the importance of properly treating pediatric fractures.
7. Advocate the use of pediatric sedation as a means to create a less anxious and more cooperative child, in turn, resulting in a better outcome.
8. Identify potential child abuse by recognizing the common indications and risk factors.
9. Identify the newest drugs of abuse by name, mechanism of action, and treatment of overdose.
10. Prioritize care for the sexual assault patient who presents in a rural setting.
11. Recognize the common sources of medical-related radiation and the threat it poses to the public.
